

I wish to express my strong support for continuing the operation of the K-Love broadcasting operation. The content of this media outlet reduces stress for drivers, promotes goodwill and positive community contributions by all listeners. The commercial-free service of this organization contributes to a non-partisan spirit in a very divided nation at this time and I urge you to continue to not only permit its operation but to strengthen the protection which enables it to function nationwide. The specific station I listen to is 102.3 FM in Dayton, Ohio, although I also commute to Cincinnati and receive it on 104.1 FM and 96.9 FM as well. My remarks apply to all of these broadcasting venues. Thank you for considering my input in your decision.
